

U.S. Department of Education Proposed Targets for Input DUE FEBRUARY 1, 2022

SPP Indicator 1					
Federal Uniform Graduation Rate - Percentage of youth with IEPs graduating with regular diploma.					
Data Source and Measurement					
Data Source: Same data as used for reporting to the Department under section 618 of the Individuals with Disabilities Education Act, using the definitions in EDFacts file specification FS009.					
Measurement: States must report a percentage using the number of youth with IEPs (ages 14-21) who exited special education due to graduating with a regular high school diploma in the numerator and the number of all youth with IEPs who left high school (ages 14-21) in the denominator.

SPP Indicator 2					
Federal dropout rates - Percentage of youth with IEPs dropping out of high school.					
Data Source and Measurement					
Data Source: Same data as used for reporting to the Department under section 618 of the Individuals with Disabilities Education Act, using the definitions in EDFacts file specification FS009.					
Measurement: States must report a percentage using the number of youth with IEPs (ages 14-21) who exited special education due to dropping out in the numerator and the number of all youth with IEPs who left high school (ages 14-21) in the denominator.

SPP Indicator 3A					
Participation rate for children with IEPs.					
Data Source and Measurement					
Data Source: Same data as used for reporting to the Department under Title I of the ESEA, using EDFacts file specifications C185 and 188.					

U.S. Department of Education Proposed Targets for Input DUE FEBRUARY 1, 2022

Measurement: Participation rate percent = [(# of children with IEPs participating in an assessment) divided by the (total # of children with IEPs enrolled during the testing window)]. Calculate separately for reading and math. Calculate separately for grades 4, 8 and high school. The participation rate is based on all children with IEPs, including both children with IEPs enrolled for a full academic year and those not enrolled for a full academic year.

SPP Indicator 4A					
Suspensions/Expulsions – Percentage of districts that have a significant discrepancy in the rates of suspensions and expulsions.					
Data Source and Measurement					
Data Source: State discipline data, including State’s analysis of State’s discipline data collected under the Individuals with Disabilities Education Act (IDEA) Section 618, where applicable. Discrepancy can be computed by either comparing the rates of suspensions and expulsions for children with IEPs to rates for children without disabilities within the LEA or by comparing the rates of suspensions and expulsions for children with IEPs among LEAs within the State.					
Measurement: Percent = [(# of LEAs that meet the State-established n and/or cell size (if applicable) that have a significant discrepancy, as defined by the State, in the rates of suspensions and expulsions for more than 10 days during the school year of children with IEPs) divided by the (# of LEAs in the State that meet the State-established n and/or cell size (if applicable))] times 100.

SPP Indicator 4B Suspensions/Expulsions – Percentage of districts that have a significant discrepancy in the rates of suspensions and expulsions by race or ethnicity.					
Data Source and Measurement Data Source: State discipline data, including State’s analysis of State’s discipline data collected under IDEA Section 618, where applicable. Discrepancy can be computed by either comparing the rates of suspensions and expulsions for children with IEPs to rates for children without disabilities within the LEA or by comparing the rates of suspensions and expulsions for children with IEPs among LEAs within the State.					

U.S. Department of Education Proposed Targets for Input DUE FEBRUARY 1, 2022

Measurement: Percent = [(# of LEAs that meet the State-established n and/or cell size (if applicable) for one or more racial/ethnic groups that have: (a) a significant discrepancy, as defined by the State, by race or ethnicity, in the rates of suspensions and expulsions of more than 10 days during the school year of children with IEPs; and (b) policies, procedures or practices that contribute to the significant discrepancy, as defined by the State, and do not comply with requirements relating to the development and implementation of IEPs, the use of positive behavioral interventions and supports, and procedural safeguards) divided by the (# of LEAs in the State that meet the State-established n and/or cell size (if applicable) for one or more racial/ethnic groups)] times 100.

SPP Indicator 9

Disproportionate representation in special education that is the result of inappropriate identification – Percentage of districts with disproportionate representation of racial/ethnic groups in special education and related services that is the result of inappropriate identification.

Data Source and Measurement					
Data Source: State’s analysis, based on State’s Child Count data collected under the Individuals with Disabilities Education Act section 618, to determine if the disproportionate representation of racial and ethnic groups in special education and related services was the result of inappropriate identification.					
Measurement: Percent = [(# of districts, that meet the State-established n and/or cell size (if applicable) for one or more racial/ethnic groups, with disproportionate representation of racial and ethnic groups in special education and related services that is the result of inappropriate identification) divided by the (# of districts in the State that meet the State-established n and/or cell size (if applicable) for one or more racial/ethnic groups)] times 100.

SPP Indicator 11 Time frame between evaluation and identification (Child Find) – Percentage of children who were evaluated within 60 days of receiving parental consent or state timeframe.					
Data Source and Measurement					
Data Source: Data to be taken from State monitoring or State data system and must be based on actual, not an average, number of days. Indicate if the State has established a timeline and, if so, what is the State's timeline for initial evaluations. Measurement: # of children for whom parental consent to evaluate was received. # of children whose evaluations were completed within 60 days (or State-established timeline). Account for children included in (a), but not included in (b). Indicate the range of days beyond the timeline when the evaluation was completed and any reasons for the delays. Percent = $\left[\frac{(b)}{(a)} \right]$ times 100.

SPP Indicator 12 Percent of children found eligible with IEP implementation by 3rd birthday.					
Data Source and Measurement					
Data Source: Data to be taken from State monitoring or State data system.					

U.S. Department of Education Proposed Targets for Input DUE FEBRUARY 1, 2022

Measurement: a. # of children who have been served in Part C and referred to Part B for Part B eligibility determination; b. # of those referred determined to be NOT eligible and whose eligibility was determined prior to their third birthdays; c. # of those found eligible who have an IEP developed and implemented by their third birthdays; d. # of children for whom parent refusal to provide consent caused delays in evaluation or initial services or to whom exceptions under 34 C.F.R. § 300.301(d) applied; e. # of children determined to be eligible for early intervention services under Part C less than 90 days before their third birthdays; f. # of children whose parents chose to continue early intervention services beyond the child’s third birthday through a State’s policy under 34 C.F.R. § 303.211 or a similar State option. Account for children included in (a), but not included in b, c, d, e or f. Indicate the range of days beyond the third birthday when eligibility was determined and the IEP developed, and the reasons for the delays. Percent = [(c) divided by (a – b – d – e – f)] times 100.

SPP Indicator 13					
Secondary transition through the percentage of youth ages 16 and older with measurable, annually updated IEP goals and appropriate transition assessment, services and courses.					
Data Source and Measurement					
Data Source: Data to be taken from State monitoring or State data system.					
Measurement: Percent = [(# of youth with IEPs aged 16 and above with an IEP that includes appropriate measurable postsecondary goals that are annually updated and based upon an age appropriate transition assessment, transition services, including courses of study, that will reasonably enable the student to meet those postsecondary goals, and annual IEP goals related to the student’s transition services needs. There also must be evidence that the student was invited to the IEP Team meeting where transition services are to be discussed and evidence that, if appropriate, a representative of any participating agency that is likely to be responsible for providing or paying for transition services, including, if appropriate, pre-employment transition services, was invited to the IEP Team meeting with the prior consent of the parent or student who has reached the age of majority) divided by the (# of youth with an IEP age 16 and above)] times 100.
